ABUBAKAR MUMTAZ

Rawalpindi, Pakistan • +92 316 5410921 • abubakarmumtaz1801@gmail.com • linkedin.com/in/abm1801 • abubakarmumtaz.netlify.app

PROFESSIONAL SUMMARY

Detail-oriented Full-Stack Web Developer with hands-on engineering experience across **Python (Django), Ruby on Rails, and PHP (Laravel)**. Proven track record of architecting secure authentication systems, leading User Acceptance Testing (UAT) and defect triage, and managing normalized relational databases (PostgreSQL, MySQL, SQLite). Strong command of Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), and local AI edge deployment.

TECHNICAL SKILLS

Programming Languages	Python, Java, C++, SQL (PostgreSQL, MySQL, SQLite), JavaScript (ES6+)
Frameworks & Libraries	Django, Ruby on Rails, Laravel, AdminLTE, Form.io, NumPy, Pandas, Matplotlib
Web & Architecture	HTML5, CSS3, Asynchronous JavaScript (AJAX), RESTful APIs, MVC Architecture
DevOps, QA & Tools	Git/GitHub, Docker, n8n Automation, Jira, TestTrack, Manual QA & UAT Support, OOP, DSA, DB Normalization

PROFESSIONAL EXPERIENCE

Support Engineer Intern | Techlogix, Islamabad | July 2026 – September 2026

- Spearheaded technical support across **User Acceptance Testing (UAT)** cycles, resolving client-reported tickets and streamlining release workflows.
- Triaged software defects, reproduced edge-case bugs, and tracked issue lifecycles using **Jira** and **TestTrack** to ensure stable deployments.

Junior Web Developer Intern | ITshifts Technologies, Islamabad | July 2025 – September 2025

- Engineered full-stack web application modules using **Ruby on Rails**, implementing modular MVC backend logic and structured data routing.
- Executed mobile and web QA testing protocols to isolate defects and harden software reliability across agile Git sprints and peer code reviews.

Python Intern | AGT Institute, Rawalpindi | March 2024 – August 2024

- Developed core backend features and refactored legacy **Python** code to eliminate bottlenecks and increase runtime execution efficiency.
- Diagnosed defects, authored unit tests, integrated **MySQL and SQLite** databases, and automated workflows using **NumPy, Pandas, and Matplotlib**.

SELECTED ENGINEERING PROJECTS

SATURDAY — Local Multimodal AI Assistant | Python, Local LLM, Edge Runtime | Portfolio Link

- Engineered an offline, locally hosted multimodal AI assistant optimized to execute directly on consumer hardware with zero cloud latency.
- Architected a multi-phase background execution server with automated cloud-fallback parameters to run containment scripts securely.

Petable — Admin Dashboard & Web Platform | Laravel, AdminLTE, Form.io, Web Security | Portfolio Link

- Designed scalable MVC backend architecture and data workflows for a high-fidelity MVP web platform.
- Integrated a dynamic, role-based administrative dashboard using **AdminLTE** and **Form.io** to centralize and streamline content management.

SmartBot & Core Software Suite | Java, OOP Architecture, CRUD Systems | Portfolio Link

- Built an automated assistant software suite applying strict Java **Object-Oriented Programming (OOP)** principles for clean logical separation.
- Developed a suite of CRUD data management applications (Expense Tracker, Grade Calculator, HR System) featuring role-based access control.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | Foundation University Islamabad | September 2024 – Present

- **Core Coursework:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Database Systems, Application Architecture.
- **Prior Distinctions:** F.Sc Pre-Medical (Federal Board, 2023 — **'A' Grade**); Matriculation (Federal Board, 2021 — **'A+' Grade**).
