PROFESSIONAL SUMMARY

Detail-oriented Full-Stack Web Developer with hands-on framework experience spanning Python, Django, and Ruby on Rails. Proven track record of building secure user authentication systems, executing rigorous application testing, and managing backend databases. Strong foundational knowledge of Object-Oriented Programming (OOP) and modern software architecture.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C++, SQL (MySQL, SQLite)
- **Frameworks & Libraries:** Django, Ruby on Rails, NumPy, Pandas, Matplotlib
- **Web Technologies:** HTML5, CSS3, JavaScript, Asynchronous Programming (AJAX)
- **Tools & Methodologies:** Git/GitHub, Object-Oriented Programming (OOP), Software QA/Manual Testing, Database Normalization

PROFESSIONAL EXPERIENCE

Junior Web Developer Intern | ITshifts Technologies, Islamabad | July 2025 – September 2025

- Developed full-stack web applications utilizing Ruby on Rails to build robust backend modules.
- Executed mobile application testing and QA protocols to identify edge cases and improve software reliability.
- Participated in agile sprints, version control workflows via Git, and collaborative code reviews.

Python Intern | AGT Institute, Rawalpindi | July 2024 – August 2024

- Engineered new features and refactored core backend logic for Python applications to increase runtime efficiency.
- Diagnosed bugs, conducted unit testing, and integrated frontend components with relational databases (MySQL/SQLite).
- Researched and integrated emerging programming tools and utility libraries to optimize workflows.

PROJECTS

SATURDAY — Local AI Assistant

- Developed an offline, locally hosted multimodal AI assistant engineered to run efficiently on consumer hardware.
- Architected a multi-phase background execution server with cloud-fallback parameters to securely run containment scripts.

Petable — Admin Dashboard & Web Platform

- Managed end-to-end initialization and version control tracking for a high-fidelity web platform clone.
- Integrated a dynamic administrative dashboard layout for the MVP to streamline content management.

SmartBot & Core Software Suite (Java / OOP)

- Designed an automated assistant application leveraging advanced Java OOP principles for strict code separation.
- Developed a suite of CRUD data management applications, including an Expense Tracker, Grade Calculator, and HR/Student Record Management systems featuring secure access control.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | Foundation University Islamabad | *September 2024 – Present*

- *Track:* Class BSCS-4B
- *Core Coursework:* OOP, Data Structures & Algorithms, Database Systems, Application Architecture.

Higher Secondary School Certificate (F.Sc — Pre-Medical) | Federal Board | *Graduated: 2023*

- *Result:* Achieved 'A' Grade

Secondary School Certificate (Matriculation) | Federal Board | *Graduated: 2021*

- *Result:* Achieved 'A+' Grade
